

JUNE JAZZIN

OFFICIAL PRESS KIT

BIO

June Jazzin is a deep house DJ & Producer, born and raised in the Red Brick City of Pietermaritzburg, in Kwazulu Natal, South Africa. Also known as "The Keeper of Groove", June Jazzin began his deejaying career in 2007 as a sound man and has never looked back since.

June is a veteran in the game, with deep roots in House Music, earning his dues under the guidance of legendary **Vinny Da Vinci** and drawing inspiration from the works of **Next Evidence** and **Glenn Underground** to name a few. While his super power ability is to balance the original house music sound from the abandoned warehouses of Chicago with local South African groove, he curates his DJ sets to express the stir-it-up-my-soul classic house sounds, along with the modern rhythm of deep house synths.

Beyond his highly respected DJ sets, his music production has gained him high esteem over the years with hit tracks such as "**Save Us**" alongside Griffith Mallo, "**Red Brick City**" with Artwork Sounds and his recent hit single "**Come To the West**", paying homage to his home town Pietermaritzburg.
